# Skypod

In the past, lantern roofs were the preserve of high-end properties. These were not only expensive, but the slightly 'industrial' design wasn't to everyone's taste. That's why we created Skypod. As well as offering outstanding looks, it costs less – and provides the perfect match for your existing PVC-U windows and doors.

**Enjoy larger glass areas**

With its clean lines and sleek looks, a Skypod lantern roof will add real height and volume to your room. And thanks to a no side rafter option, you can enjoy unimpeded views.

**An energy efficient solution**

Skypod can achieve exceptional U-values as low as 1.0\* – this helps minimise heat loss, meaning that you can save money on your heating bills.

\*Standard U Value is 1.2 – U-value is applicable to glass only.

Looking to extend? Make a stunning feature of a flat roof with Skypod.

# Skypod Plus

## The easy way to add more class to your glass roof

Introducing the Skypod Plus. Designed with a premium frame that looks great, is high quality and easy to install. Skypod Plus is available in black, white and grey.

Like the rest of the Skypod range, this sleek, modern lantern roof has been designed to meet the demands of design-conscious buyers.

Style-savvy people who want to let more natural light into their flat roof extension or garage conversion, but also demand contemporary design that works in harmony with their living space.

**Premium finish**

Because we've used an aluminium frame and aluminium ridge and top rafter cappings, Skypod Plus offers a premium quality finish, for years of faithful service.

**Multiple design options**

Eurocell Skypod Plus is available in a range of stylish options, helping you make light work of the most demanding design and installation requirements
